**K** Please add "K" behind catalog reference if black ceramic coating is desired. \*Please use Geister 360° rongeurs for cervical and transsphenoidal surgery only.

## Geister 360° Turnable Rongeur

In order to prevent accidental shaft release, this procedure will work only in one direction. After Position 7 you will not be able to turn the shaft further (security stop).

Easy to clean. Disassemble and assemble the turnable shaft quick and easy.

**Frame with robust silicone mesh for safe and flexible storage of various parts**

**Art-No.**
